Meeting convened at 1030 hours

KPA/CPV:

I called today's meeting to settle through negotiation the violations of the Armistice Agreement committed by your side lately.

At approximately 1055 hours our time on May 15, 1961, two F-86 military jet aircraft of your side flew across the Han River Estuary to invade the air space over the vicinity of RYUNGJUNG-RI, 37 degrees 48 minutes 30 seconds North, 126 degrees 31 minutes 40 seconds East in the territory under the military control of our side. Then those aircraft veering to the northeast, penetrated into as far as the air over the vicinity of YUNISAN, 37 degrees 50 minutes 20 seconds North, 126 degrees 38 minutes 20 seconds East of our side and carried out aerial reconnaissance circling at a low altitude the air above the same area. And at about 1059 hours our time, changing their course to the southeast, they flew away in the direction of ODOO-SAN, 37 degrees 46 minutes 10 seconds North, 126 degrees 40 minutes 40 seconds East of your side.

At the 140th meeting of the Military Armistice Commission held on April 22 last, the Senior Member of your side stated that, QUOTE proper action has been taken UNQUOTE as prescribed by the Armistice Agreement, admitting the air violation by your side which had occurred on April 20. But

Sec/234

KPA/CPV: (CONTD)

a similar air violation occurred again in less than a month after that.

I have been ordered by the Senior Member of our side to enter a serious protest with your side against its hostile acts committed by dispatching unceasingly its military aircraft into the air space over our territory in violation of Paragraph 16 of the Armistice Agreement.

Furthermore, I demand strongly that your side punish severely in accordance with the terms of the Armistice Agreement all of your personnel who have committed those violations of the Armistice Agreement and that your side take thorough-going steps to prevent a recurrence of similar violations of the Agreement in the future.

UNC:

In answer to your charge of an air violation, I have this statement to make:

During the morning of 15 May 1961, two United Nations Command aircraft crossed the Han River Estuary through error and flew a short distance over territory under the military control of your side. These aircraft had no hostile intent and when the pilots realized their mistake, they immediately withdrew to the south.

The United Nations Command regrets this unintentional violation and has already taken appropriate action in accordance with the Armistice Agreement.

KPA/CPV:

While admitting its own air violation now, you explain it away saying as if it had been caused through an error. The hostile act of your side dispatching its military aircraft to the territorial air of our side in violation of the Armistice Agreement is not due to any error but it is a planned and deliberate act aimed at conducting reconnaissance for the purpose of preparing for a new war.

KPA/CPV: (CONTD)

This is in no way the first time for you to resort to such a shameless practice in order to cover up your guilt. Your side has incessantly committed provocative hostile acts against our side in flagrant infringement of Paragraph 16 of the Armistice Agreement that prescribes that the air space of the opposing side must be respected.

Flatly condemning the shameless machination of your side, I firmly demand that your side severely punish in accordance with Sub-paragraph 13e of the Armistice Agreement all of your personnel involved in the recent aggressive operation and take thorough action to prevent a recurrence of similar violations of the Agreement.

I go to another violation by your side of the Armistice Agreement.

It is prescribed in Paragraph 15 of the Armistice Agreement that both sides QUOTE shall respect the waters contiguous to the Demilitarized Zone and to the land area of Korea under the military control of the opposing side and shall not engage in blockade of any kind of Korea. UNQUOTE This notwithstanding, your sub-chaser number 706 again recently intruded into the coastal waters of our side on two occasions.

That is, around 1200 hours our time on May 10, 1961, the aforesaid sub-chaser number 706 of your side illegally crossed the extension of the Military Demarcation Line and around 1255 hours our time intruded as far as into the vicinity of 38 degrees 40 minutes North, 128 degrees 33 minutes East in our coastal waters. And around 0140 hours our time on May 18, 1961, she again intruded into the waters of our side in the vicinity of 38 degrees 39 minutes North, 128 degrees 26 minutes East.

Our side has already lodged protests on several occasions with your side against the sea intrusions frequently

KPA/CPV: (CONTD)

committed by your side, particularly from the beginning of this year, and repeatedly demanded your side to stop such provocations. In disregard of this fact, however, your side has again recently committed similar violations of the Armistice Agreement.

I have been instructed by the Senior Member of our side to lodge a serious protest with your side against the fact that your side has incessantly dispatched its naval craft into the coastal waters of our side to commit provocative and hostile acts in violation of Paragraph 15 of the Armistice Agreement.

At the same time, I demand that your side severely punish all of the personnel of your side involved in the recent provocations committed at sea as required by the Armistice Agreement and take thorough measures to prevent a recurrence of similar sea intrusions in the future.

UNC:

With regard to your comments concerning the air violation, I have already stated that appropriate measures have been taken.

The United Nations Command does not send aircraft over the territory of your side with hostile intent. The United Nations Command respects the letter and spirit of the Armistice Agreement to cease all hostile acts. The charge of your side against the United Nations Command has been answered. Your further reiteration of it is purely for propaganda purposes.

The United Nations Command is always faithful to investigate promptly and thoroughly all alleged violations of the Armistice Agreement charged by your side. Based on the results of the investigation, the allegation is admitted or denied according to the evidence. The great majority of the violations charged by your side are discovered to be

UNC: (CONTD)

pure conjecture and a crude attempt to slander the United Nations Command. Occasionally, an inadvertent violation occurs, and it is admitted frankly.

This is in great contrast to the insincere attitude of your side. The United Nations Command has charged your side with 83 air violations, and all have been denied, most of them without any pretense of an investigation.

I will point out again that your recent air violations are well known to you and to the many persons who observed these flagrant violations. Your denial of these violations shows how your side has no regard for the truth.

With regard to your charges of alleged naval violations, these are undoubtedly more fabrications intended to build-up your list of unfounded charges to be used for propaganda purposes. However, your charges will be investigated as called for in the Armistice Agreement.

I now call your attention to another flagrant violation of the Armistice Agreement by your side.

At about 2120 hours, Korean Standard Time, on 17 May 1961, a vessel of your side moved south of an eastward extension of the Military Demarcation Line at high speed into the waters contiguous to the territory of our side. The vessel continued south toward the land area of our side in an obvious attempt to land agents of your side.

This hostile activity of your side was frustrated by a patrol boat of our side at a position in the vicinity of 38 degrees 27 minutes 45 seconds North, 128 degrees 31 minutes 30 seconds East, many miles south of the eastward extension of the Military Demarcation Line in the territorial waters of our side. The vessel of your side, finding itself unable to complete its mission, fled north at high speed along the coast into the waters contiguous to the territory of your side.

UNC: (CONTD)

This hostile act of intruding into the waters contiguous to the territory under control of our side to land agents in southern Korea is strongly protested.

Your side is reminded that the Armistice Agreement requires naval forces of both sides to respect the waters contiguous to the land area under the military control of the other side.

The Armistice Agreement requires your side to investigate this violation, report to the Military Armistice Commission and to punish those responsible.

KPA/CPV:

The so-called QUOTE sincerity UNQUOTE toward the Armistice Agreement on which your side has customarily harped is out-and-out hypocrisy.

It is impossible for you, therefore, to cover up the disgraceful crime of your side or deceive the public however often you may talk about your side's QUOTE sincerity UNQUOTE toward the Armistice Agreement.

The hostile act of your side illegally dispatching its military aircraft into the territorial air of our side to conduct aerial reconnaissance over our side constitutes the disruption and infringement of the Armistice Agreement.

I again demand that, desisting from absurd empty words, your side take practical measures to cease forthwith the provocative and hostile act of dispatching its military aircraft into the territorial air of our side.

Your side has just expressed its intention to QUOTE conduct an investigation UNQUOTE into the intrusion by the naval craft of your side while arraying such nonsensical words as QUOTE fabrication UNQUOTE and QUOTE propaganda. UNQUOTE This is an inexcusable proof that the alleged investigation you will conduct will be the same one as was made insincerely and irresponsibly in the past for the purpose of covering up its crimes.

KPA/CPV: (CONTD)

Such an impudent attempt of your side can hardly be tolerated.

I strongly demand that your side conduct not such an investigation into the incident as it made before following its customary practice with the intention of flatly denying the glaring facts proceeding from what is called a consistent position, but an honest investigation so as to severely punish as required by the terms of the Armistice Agreement those of your personnel involved and take positive action to prevent a recurrence of similar hostilities.

All the records of the proceedings of the past meetings prove clearly that your side has slandered and charged our side with groundless incidents fabricated by your side in an attempt to mislead the unbiased public opinion whenever it was driven into an awkward position by the exposure of the grave violations by your side of the Armistice Agreement.

Our side which has always been faithful to the Armistice Agreement, however, will comment on the charge after making an investigation into it.

I have a statement to make on another subject.

At about 1500 hours our time on May 8, 1961, 10 military personnel of your side intruded into our portion of the Demilitarized Zone crossing the Military Demarcation Line in the vicinity of 38 degrees 19 minutes 45 seconds North, 127 degrees 24 minutes 00 seconds East.

After crossing the Military Demarcation Line, they marched farther surreptitiously in our portion watching carefully around them, and when they encountered the civil police of our side who had been on routine patrol mission in the vicinity of 38 degrees 20 minutes 10 seconds North, 127 degrees 23 minutes 50 seconds East, they fled pell-mell at about 1510 hours our time.

And on May 9, 1961, the following day, at about 0835

KPA/CPV: (CONTD)

hours our time, 3 armed personnel of your side appearing in the vicinity of 37 degrees 49 minutes 50 seconds North, 126 degrees 41 minutes 35 seconds East, fired 2 shots toward the vicinity of 37 degrees 50 minutes 18 seconds North, 126 degrees 41 minutes 00 seconds East in our portion of the Demilitarized Zone.

As mentioned-above, your side had your military personnel trespass upon our territory collectively for the purpose of committing hostile acts against our side and fired arms toward our side, thereby violating the Preamble and Paragraphs 6, 7, 12, 14 and 17 of the Armistice Agreement

These violations by your side of the Armistice Agreement constitute a malicious challenge designed to intensify tensions in Korea further and to cause serious trouble between both sides.

I have been instructed by the Senior Member of our side to lodge a vigorous protest with your side against these hostile and provocative acts continually committed against our side in disregard of our repetitive warnings and protests.

At the same time, I demand that your side punish severely as required by the Armistice Agreement all of your personnel involved in the recent violations and take responsible action to prevent a recurrence of similar violations of the Agreement in the future.

UNC:

Your charges of alleged ground violations in the DMZ will be investigated in accordance with the terms of the Armistice Agreement.

I now speak of another vicious attack by your side directed against Korean people going about their peaceful occupation.

At about 0200 hours, Korean Standard Time, on 20 May

UNC: (CONTD)

1961, a peaceful fishing boat of our side was viciously fired upon by armed vessels of your side when it became disoriented and sailed into the waters contiguous to the territory under the military control of your side in the vicinity of 37 degrees 44 minutes North, 125 degrees 40 minutes 45 seconds East. The armed vessels of your side attempted to capture the fishing boat or force it to land on an island under the military control of your side, but failing in this attempt, they subjected the fishing boat to heavy fire as it sought to return to the south.

This unprovoked attack is strongly protested.

The United Nations Command demands that your side cease these hostile violations of the cease-fire provisions of the Armistice Agreement, investigate this charge and punish those responsible.

KPA/CPV:

I have noted your statement that your side will conduct investigations into the hostile acts of your personnel brought up by our side.

Your side has again today hurled unfounded slanders and charges against our side which has consistently and strictly been complying with the Armistice Agreement in a vain attempt to cover up the serious violations of the Agreement your side has committed incessantly on land, at sea, and in the air.

Whatever unfounded charges you may level against our side with your veins swelling in your neck, you can never cover up your true colors as the violators of the Armistice Agreement and the aggressor as it is impossible to conceal a gimlet in a sack.

Our side will comment on your charge after making an investigation into it as we have done in the past.

I go to yet another subject.

KPA/CPV: (CONTD)

At the 231st Secretaries' meeting held on March 18, 1961 and at the 233rd Secretaries' meeting held on April 26, 1961, your side submitted the QUOTE lists of violations UNQUOTE allegedly committed by personnel of our side.

And your side also charged our side at the 232nd Secretaries' meeting held on April 7, 1961, alleging that an airplane of our side had flown over south Korea.

Our side meantime has conducted thorough investigations into the above-mentioned charges made by your side and, as a result, has come to a definite conclusion that all of the said charges made by your side are out-and-out fabrications with no factual basis whatsoever like those made earlier. Your absurd charges are therefore denied categorically.

It is completely in contradiction to the spirit and the requirement of the Armistice Agreement for your side to trump-up groundless incidents to slander and charge our side which has consistently been faithful in implementing the Armistice Agreement, instead of taking effective measures for stopping violations of the Armistice Agreement committed in succession by the personnel of your side.

It is precisely this unjustified attitude of your side that has been the cause of the violations of the Armistice Agreement committed by your personnel one after another. The violations of the rules for the control and maintenance of the Demilitarized Zone committed by the personnel of your side from April 2nd to May 8th, 1961 alone amount to as many as 41 cases.

For the convenience of your side in conducting investigations into them, I hand your side two copies each of Korean and English versions of the list of violations.

Despite the fact that the violations by your personnel of the rules for the control and maintenance of the Demilitarized Zone have been discussed at almost every

KPA/CPV: (CONTD)

Secretaries meeting held recently, your side continues perpetrating the same sorts of violations. I have been instructed by the Senior Member of our side to lodge protests with your side against this.

At the same time, I demand that your side strictly punish the violators of the Armistice Agreement and the Agreements and Understandings between both sides in accordance with Sub-paragraph 13e of the Armistice Agreement and take responsible measures to prevent a recurrence of such violations in the future.

UNC:

Your talk about your side being always faithful to the Armistice Agreement is recognized for what it is - a pure fabrication. It is easily recognized that the policy of your political bosses forbids you from ever admitting any violation, never mind how obvious it is to any observer. This shows the nature of the statements you are required to read - they have no relation to the truth.

I now place before you a list of 58 violations committed by your side in the Demilitarized Zone during the period 22 April through 21 May 1961.

The United Nations Command demands that your side make a complete investigation of these violations and institute positive measures to prevent their recurrence.

KPA/CPV:

As I have already stated, the charges made by your side are lies invented for the sole purpose of slandering our side.

Whatever subterfuge you may employ, you can neither mislead the unbiased public opinion nor defame our side which has invariably and strictly observed the Armistice Agreement.

By indulging itself in casting groundless slanders

KPA/CPV: (CONTD)

and vituperations at the other side, your side has only exposed unwittingly that the charges it made were out-and-out fabrications.

I demand that your side desist from the unwarrantable attitude and from such despicable conduct as to slander the other side at random.

Investigations will be made into the list passed by your side now.

You have been in such a hurry trying to cover up the guilt of your side that you have forgotten even the matter which has been offered by our side.

Will your side make investigations into the violations by your personnel of the rules for the control and maintenance of the Demilitarized Zone?

UNC:

The charges of alleged violations made by your side will be investigated.

KPA/CPV:

I have noted your statement that your side will conduct investigations into the violations by your personnel of the rules for control and maintenance of the Demilitarized Zone.

Has your side anything further to offer for discussion?

UNC:

On 26 April at the 233rd Secretaries' meeting, your side charged the United Nations Command with three ground violations in the Demilitarized Zone.

These alleged violations have been carefully investigated in accordance with the spirit and letter of the Armistice Agreement and have been found utterly devoid of fact, and are therefore denied.

By willfully making such false charges, it is obvious that your side again has attempted to defame the United Nations Command and to increase tension in Korea.

UNC: (CONTD)

When will your side begin upholding the true spirit of the Armistice Agreement?

I have no further business for this meeting and propose we recess.

KPA/CPV:

It is universally known that those who are responsible for intensifying tension and creating a bellicose atmosphere in Korea are no other than you who continue to perpetrate provocative hostilities against our side flourishing in south Korea various new type weapons including atomic weapons and guided missiles.

It was confirmed beyond doubt by our personnel in the field that your side had fired arms toward our side in the Demilitarized Zone.

How can you try to deny these glaring facts?

However unconditionally you may deny those hard facts at this table, your side cannot lighten its guilt nor can it shirk the responsibility for it.

Your side should discard its improper attitude, punish those personnel involved, and take thorough measures to prevent a recurrence of similar incidents in the future.

I agree to your proposal to recess.

Meeting recessed at 1250 hours.
